

- **Best for paddlers approximately: 90-150 lb.**
- **Maximum Load (paddler plus gear): 275 lb.**

# Suka

The Suka (pronounced "Soo-ka"), is much like the Caribou in that it's a modified Greenland style design. Sleek and graceful, its scaled-down size especially suits smaller paddlers.

The shallow "V" design with hard chines gives an extra measure of security when carving turns. The Suka features a clean deck arrangement with flush hatches fore and aft. Recessed deck fit-

tings accommodate full deck rigging and reflective perimeter lines. The padded seat also comes with a comfortably padded backband and padded thigh braces. The retractable skeg helps hold the course when needed.

A sleek, narrow craft with a gracefully sweeping sheer line, the Suka displays its performance bred heritage.
